

The Tithe Farm Way:
Resilient pupils who have a life-long love of learning and are ready, respectful and safe in their choices.

Our Learning Journey

What a Wonderful World: Year 6 Light and Electricity

1

- What light sources can I identify?

2

- How does light travel? How do we see objects?

3

- How does reflection work?

4

- How are shadows formed?

5

- What happens when light travels through water?

6

- What is electricity and how does it work?

7

- How would changing a circuits components change the outcome?

8

- Can I plan an investigation into different circuits?

9

- Can I use a different conductor to power my circuit?

10

- How can I show my learning?
